Address: Road 08, West Nakhhalpara, Tejgaon , House 8, 1215, Dhaka, Bangladesh (Home)

ABOUT ME

As a seasoned software engineer, I thrive on translating creative concepts into robust code. With a passion for innovation and a commitment to coding excellence, I specialize in crafting efficient and scalable solutions. My diverse skill set, coupled with a keen eye for detail, allows me to contribute effectively to complex projects and drive technological advancement. Embracing challenges as opportunities for growth, I am dedicated to pushing the boundaries of what technology can achieve.

EDUCATION AND TRAINING

11/06/2017 – 31/10/2021 Dhaka, Bangladesh

BACHELOR OF COMPUTER SCIENCE & ENGINEERING City University

- Strong foundation in computer science, algorithms, and programming (Java, C)
- Experience with databases, networking, operating systems, and applied problem-solving through projects.

Website <https://www.cityuniversity.edu.bd> | **Field of study** Computer Science & Engineering | **Final grade** 2.87 |

Type of credits Credit Point | **Number of credits** 157 |

Thesis SmartCuisine: A Culinary Intelligence System with Advanced Recipe and Restaurant Management System

20/07/2014 – 18/08/2016 Dhaka, Bangladesh

HIGHER SECONDARY CERTIFICATE Govt. Bangla College

Website <https://www.sarkaribanglacollege.gov.bd/> | **Field of study** Science | **Final grade** 3.83

11/04/2012 – 17/05/2014 Chandpur, Bangladesh

SECONDARY SCHOOL CERTIFICATE Haziganj Pilot High School

Final grade 5.00

WORK EXPERIENCE

SOFTWARE ENGINEER – SPONDON IT – 01/12/2023 – Current – DHAKA (REMOTE), BANGLADESH

- Designed, developed, tested, and optimized scalable multi-tenant SaaS platforms using Go, PHP/Laravel, React.js, Next.js, and React Native.
- Owned end-to-end delivery of grading, transcript, certificate, enrollment, drip-access, and billing modules, from technical documentation (SRS) and database design through production support.
- Engineered efficient algorithms, implemented secure multi-tenant database structures, and optimized queries and caching for performance (PostgreSQL, MySQL, ScyllaDB, Redis).
- Ensured software quality through unit, integration, and cross-service contract testing, code review, and adherence to best coding practices, collaborating with cross-functional teams in Agile environments using Git for version control.
- Integrated cloud platforms (AWS, Digital Ocean) and payment gateways (Stripe, PayPal, SSLCommerz, bKash), implemented security measures against threats (SQL injection, XSS, unauthorized access), and leveraged Docker, Nginx, and Linux VM infrastructure with Prometheus/Grafana monitoring for scalable deployment.

JUNIOR SOFTWARE ENGINEER – RETINA SOFT – 01/03/2023 – 30/11/2023 – DHAKA, BANGLADESH

- Developed, tested, and optimized software using PHP, Vue.js with a focus on scalable solutions and database management MySQL.
- Gained experience in Agile development, Git, cloud deployment (Basic Azure Knowledge), and implementing security best practices.

JUNIOR SOFTWARE ENGINEER – RSA INFO TECH LTD – 01/06/2022 – 28/02/2023 – DHAKA, BANGLADESH

- Developed, tested, and debugged software applications while collaborating with senior engineers and cross-functional teams.
- Gained experience in Agile methodologies, payment gateway integration (Stripe, Razor pay), and best coding practices.

● LANGUAGE SKILLS

Mother tongue(s): **BANGLA**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
EN	C1	B2	C1	C1	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● SKILLS

Frontend

JavaScript | TanStack Query | TypeScript | React.js | Next.js | Vue Js

Backend

Go | PHP | Microservices

Framework

Gin | Laravel

Database

PostgreSQL | Scylla DB | SQL Server | MySQL

DevOps

Linux | Nginx | Docker | Kubernetes | Git | Gitlab CI/CD | cPanel | AWS | Digital Ocean

● PROJECTS

06/02/2026 – CURRENT

Playmist OTT

Playmist is an OTT video streaming platform delivered in two modes, a standalone service and a multi-provider content aggregator, with a Laravel API and admin, a Next.js web client, and React Native mobile and TV apps. Contributed to the shared TypeScript packages used by every client, including the typed API SDK, headless billing flow and Shaka-based video player, along with subscription checkout and DRM-protected playback.

● **HONOURS AND AWARDS**

01/02/2021

7th rank in the Cyber Security Contest – City University

I take pride in securing the notable 7th position in the esteemed Cybersecurity Contest hosted by City University. This achievement underscores my commitment and proficiency in the cybersecurity domain. Throughout the event, I showcased my expertise in recognizing and addressing security threats, highlighting my adeptness in overcoming intricate challenges within the dynamic realm of digital security.

I hereby declare that all the information furnished above is true to the best of my belief.
